Martin Hagen

1. Introduction

Hello, here is some text without a meaning. This text should show, how a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like »Huardest gefburn«? Kjift – Never mind! A blind text like this gives you information about the selected font, how the letters are written and the impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for a special contents, but the length of words should match to the language.

Figure 1: You may have seen this figure before. It is adopted from the [ERAD2014 webpage](#).

This is math inside a sentence $a = 1 + b$. The following is a small example equation.

$$y = ax^2 + bx + c \quad (1.1)$$
